 1. To stock and make available review and approval form literature.
 2. To serve as a communication link in all matters of literature between the group and literature committee on all levels- Area, Region, and World.
 3. To provide the forum and atmosphere where members may contribute to the development and creation of NA literature.
- 3) Providing a forum and an atmosphere where our members may contribute to the process of creating and developing our literature is extremely important. This responsibility can best be fulfilled by having regularly scheduled meetings for the purpose of reviewing and preparing input to our review-form literature. Members of the local fellowship should be informed regularly of meeting times and locations, and of the pieces of literature on which the committee is currently working. It is the literature chairperson's responsibility to organize a work agenda for each piece of NA literature that is out for review and input. Creative writing is an important aspect of working on review-form literature. Although the WSC Literature Committee welcomes all types of comments and input, creative writing is particularly helpful. If a piece is weak or needs additional writing on a topic, write it. Critical analysis is important, and yet creative input is equally important. Our literature is written by addicts for

Addendum 1 Subcommittee's Creation and Purposes 2008

addicts. The unique quality of our literature can occur only when members participate by providing creative writing.

Input sheets developed by area literature committees should be turned in to the regional literature committee. The regional literature committee will then either compile the input with the input for other areas, or forward the input directly to the WSC Literature Committee. If the regional literature committee is not reviewing the piece, the input can be sent directly to the WSC Literature Committee.
